

BARAKA GAS LTD

SCHOOL GAS SAFETY CHECKLIST

Ensure safety in your laboratory and kitchen environments

DAILY CHECKS (Start of Day)

- ☐ Ensure all gas isolation valves are closed before entry.
- ☐ Check for any smell of gas (rotten eggs odor).
- ☐ Verify ventilation fans are working and vents are unobstructed.
- ☐ Ensure fire exits are clear and accessible.

WEEKLY CHECKS

- ☐ Inspect flexible hoses for cracks, wear, or damage.
- ☐ Check that cylinders are secured upright with chains/straps.
- ☐ Test the operation of the emergency shut-off button.
- ☐ Ensure safety signage is visible and undamaged.

MONTHLY CHECKS

- ☐ Perform a leak test on connections using soapy water.
- ☐ Inspect burners and appliances for proper flame color (blue).
- ☐ Verify fire extinguishers are charged and in date.
- ☐ Review gas usage logs for any unexplained consumption.
